Truck Make	
Truck Model	
Model year (2001-2007?)	
GWV (more than 33,000, tag on drivers door frame)	
Transmission model number (tag on right rear side of transmission) Transmission serial number Look for a PTO that is installed then you know it is PTO ready The model number should start with a 3 and end with a P, Ex. 3060P (2000 series may be used but more detailed review may be required) To be safe call into an Allison dealer with the number to confirm it is PTO ready	
Wheel base (212 is ideal)	
Rear end ratio (6.5-5.3)	
Ask the salesman about how the emissions are handled. If it has an regenerative system it may create too much heat for use on the farm.	
Length of frame from the cab to the end 235" or more
